ment or telescoping
bleachers.

Hartford Theatre Installation

Seating Concepts is more than just seating! We are also about providing world-class installation service. Our factory-trained installation technicians recently installed the luxury seating at Harford Theatre in Wisconsin to rave reviews from the cinema owner. Our technicians pride themselves on their speed, thoroughness and professionalism. We know that it is not only important to have quality seating products but also to have a quality installation by people who do it every day and take pride in their work. Our technicians would

be happy to help you too! Give us a call today for more information on how to get seats like these installed!

Livingston Parish Schools had considerable food damage in their gyms. To the right is a photo of new Interkal bleachers at Holden High School in Holden, LA. which we completed installation in December. Doyle High School Interkal bleachers will be installed after other work in the gym is complete. Interkal bleachers will be installed at Denham Springs High School Hornsby Gym early February 2017. In one part of Livingston Parish, more than 31 inches of rain fell in 15 hours. Our thoughts and prayers are with our neighbors in Livingston Parish as they recover from the horrible flooding.

Recently installed Audience Systems Telescoping Lecture tables and seating, at South Louisiana Community College in Lafayette, LA.

This is the Abita Springs Recreation District Gym where we recently installed Porter Athletic basketball equipment and wall pads, as well as Interkal Classic Wood bleachers.

Audience Systems' Campus Fold-Down Seating has a durable steel frame that combines lecture theater seating with the flexibility of a telescopic or removable system. It can be customized with a choice of seats and backs to suit individual requirements.
