gymnasium equip-  
ment or telescoping  
bleachers.

Frix Installations out of Greenville, GA has installed Interkal bleachers for D&A Associates for over 18 years. The photo to the left is showing the layout of materials during the installation progress at Little Caillou Gym in Chauvin, Louisiana.

D & A was the low bidder on a project to install new bleachers at Little Caillou Gym in Chauvin, Louisiana. Working with Belinda Prosperie of Recreation District #7 made the project run smoothly. Belinda's workforce removed the old bleachers and ran electrical wiring to junction boxes so that when the new bleaches arrived there would be no delay in installation. The other 3 photos are of the new Interkal telescoping bleachers 80' long x 8 rows high with royal blue Excel Seat Modules. Thank you to all who worked on this project for D & A.

### Who we're working with
